GERMANY CANNOT REMAIN INACTIVE OR MUCH LONGER

Whitby, Aug. 16-13
Provincial Lib.
Austrian Invaders and Servian Troops are fighting the Opening Stages of the Conflict in Servian Territory, Statesmen and Rulers Engaged in What They Think is the Hopeless Task of Trying to Avert a General Clash of the Millions Composing the Armies of the Great Powers.

Germany's act today in giving Russia a time limit of 24 hours in which to declare her intentions in connection with the mobilization of her army added one more danger-point to the gravely critical situation already sharply acute. The nervous tensions in all the countries of the old world had almost reached its utmost limits when this fresh peril cropped up.

At the same time it was announced that orders had been sent to all the officers and men of the German reserves to hold themselves in readiness. As it had been pointedly asserted a few days ago that Germany would not draw back when she once started, the situation was left in diplomatic circles to have reached a point where the slightest false move would set millions of armed men in motion.

The gravity of the international situation was recognized in all European capitals today.

Premier Asquith and Sir Edward Grey called on all parties in the British Isles to join in efforts to avert the immeasurable calamity of an extension of hostilities to other countries. The German Emperor conferred at length with the imperial chancellor and the ministers of war and marine, and late reserve officers received orders to mobilize.

Russia proceeded with her mobilization of a large number of troops.

President Poincaré and the French cabinet decided to meet daily. The French defensive forces took extensive precautionary measures. The Austrian invaders and Servian troops came into contact on Servian territory and hundreds of casualties were said to have resulted.

The whereabouts of the main British fleet is unknown since its departure yesterday from Portland under sealed orders. The German battle squadrons are concentrated at Kiel and Wilhelmshaven.

The French fleet has taken steps to prepare for eventualities. Japan is said to have declared its readiness to join its ally, Great Britain.

In outlying British colonies the troops have been prepared for military service.

A German gunboat hurriedly quit Capetown today and went to sea. The German and British fleets in the far east have been concentrated at their chief stations.

All foreign students were ordered to leave German schools. Stock markets everywhere in Europe have virtually ceased operations and the leading banking institutions have taken measures to preserve their stocks of gold.

Ottawa, Ont., July 30.—Col. Sam Hughes, minister of militia, proposes to be prepared in the event of Great Britain becoming involved in a general European war. The minister arrived this morning from London, where he has been having a holiday, and immediately had a conference with the officers of the militia department. While nothing was given out subsequent to the gathering, it is safe to assume that the department has already had inquiries from the British war office as to the whereabouts of imperial officers at present in Canada, either on duty or on leave of absence.

Sir Robert Borden is still in Muskoka, but in the event of developments breaking Great Britain would undoubtedly hurry back to Ottawa as the matter of Canadian offers of assistance would immediately become pressing.

In such an event it is quite likely that a special session of parliament would be summoned. At present the house would meet in November or late October or to give parliamentary sanction to whatever action the government might take. In the event of a call for volunteers being sent out, and volunteer units being organized as was done in connection with the South African war, the cost would be covered by the issuance of government bonds.

At present the government is not in a position to make a special appropriation would be voted. Absolutely nothing in the way of an official statement has been given out here, although without doubt the government will be kept advised of the progress of the situation.

In the meantime all preparatory steps for a mobilization of the German army were being taken.

All the officers were recalled and no leave is to be granted. The railroad

While some trunks were being carried to a house on Boyle street yesterday one of them accidentally dropped onto the pavement. From the corner of the box there immediately gushed a cooling stream which exhaled quite a pungent odor well-known to those who indulge in that which is said to "warm the cockles of the heart." Unfortunately for the owners of the trunk, the liquid gave the show away. The detectives of the liquor license branch of the attorney-general department were alerted by the incident and before long a large consignment of whisky was on the way to the place where the liquor license branch stores contraband spirits seized from illicit traders.

There was no address to indicate by whom the liquor was consigned or who was the consignee, and the house on Boyle street was just being used as a temporary depot while the liquor was packed in cases which would not arouse suspicion. There were two large packing cases and a smaller box, all full of liquor. Over the top was placed bedding, and to all appearance the cases contained "settlers' effects." It is presumed that the liquor was the property of parties who were going north to carry on a business. The liquor—almost a wagon load—will be held by the department for 30 days, after which it will be sold if unclaimed. Whoever claims it will be required to make an explanation, which might be difficult to make.

A number of convictions have been secured by the department in the liquor cases. Here a firm of subcontractors employed on the irrigation ditch were found to be supplying liquor to their clients. The liquor was supplied was deducted from the men's wages. Detectives of the attorney-general department obtained employment with the firm through an employment agency in Calgary and presented for Detective Hodgkins of Calgary followed.

The firm, Grant, Smith and Macdonald, were fined \$150 and costs for selling liquor without a license. The manner was also convicted on a similar charge and fined a like amount. The firm also were fined \$10 and costs for keeping a pool room open on Sunday.

Stagale Brocks, of Brooks, was fined \$10 and costs for selling liquor without a license.

WAR IN IRELAND
NOW IS AVERTED**

Agreement Has Been Reached on the Home Rule Amending Bill—
Government and the Opposition Settle Differences—Leaders of
Political Parties Hold Conference.

London, July 30.—An agreement has been reached on the home rule amending bill this averting danger of civil war in Ireland, according to a semi-official announcement today.

It was stated that the government and opposition settled differences. The leaders of political parties in the United Kingdom were in conference today at the residence of Sir Edward Grey, the British foreign secretary, where the international situation was under discussion. Premier Asquith and Andrew Bonar Law, leader of the opposition, drove together to the meeting in Mr. Law's car. It was said that an agreement had been reached by all parties in reference to Irish home rule.

Rumors are very prevalent this afternoon of an agreement on the home rule question. The whole tone of the press in view of the grave international situation, is entirely in favor of an amicable settlement of domestic differences. Conference have been held today between leaders of every political section.

**COMMERCIAL CLUBS

The liquor permit of the Commercial Club has been cancelled by the attorney-general's department. The cancellation went into effect last night. Officers of the department who have been investigating during the past few days found a number of infractions of the Liquor License Ordinance.

**PREMIER SIFTON
HAS IDEAS SAME
AS ASSOCIATION**

Hon. A. L. Sifton Advises Settling Up Land in District Immediately.

**EDMONTON HAS UNIQUE
RAILWAY ADVANTAGES**

Dunvegan Will Have 250 Miles Laid This Year, Waterways 150.

Premier Arthur L. Sifton spoke before the Edmonton Industrial association at its regular weekly luncheon in the Empire auditorium today, and his chief line of argument for the building up of this city and district, which is the recognized financial center of the Edmonton Industrial association, and similar bodies, was very much like that of other speakers who have appeared before this body.

The most interesting statement of the premier's address, which was short and to the point, was perhaps that if the association would undertake to settle all the land within a radius of 15 miles from Edmonton, three-quarters of which was idle, a city as large as Edmonton now is could be supported in a better condition than it is at present. "If not another dollar were expended within that radius," said the leader of Alberta's government, "a city as large as Edmonton could be supported. There is no better land on this continent for growing anything that can be grown in this climate. There are ample railway facilities and a great market in the city of Edmonton. Yet three-quarters of the land within a radius of 15 miles from where we now stand is absolutely idle."

About 200 people attended today's luncheon, and the premier's statement was well received. He pointed out that the Edmonton Industrial association, which is located on Jasper avenue west, between Second and Third streets. It is being looked after by McIntosh brothers. However, who demonstrate beyond the possibility of reasonable doubt that excellent quality of the products that can be grown with great profit on the fertile land in this district.

Piano and violin solos were rendered by Miss Rose Stein and Miss Ethel Finkelman, of Winnipeg. They were of an exceptionally high order for performance on such an occasion and the Winnipeg ladies were greeted with loud applause.

Mr. Sifton, who is minister of railways and telephones in the Alberta government, as well as leader, said that the railway and the railway situation in the province, of course, he did not weary his audience with a lengthy speech, as he has been doing in the past, but he did make a few statements.

"This city," he declared, the premier, "has the most unique railway facilities of any city on the continent of its size. Besides the two great trunk lines, the Canadian and the Great Northern, which run through it from one ocean to the other, there is the C.P.R. with a branch line, and the three lines east. Then you have several lines of the Canadian Northern running north and west, and its line toward the Peace River country will be finished to the Mackled river this year.

The Dunvegan railway is now completed, and will be 150 miles, and before it freezes up it will have 250 miles of steel put down. The Alberta and Great West railways have 60 miles of grading finished and by the end of the year will have steel to Lac la Poudre, a distance of about 150 miles, and a town started on the shores of that great lake.

These great works are being carried on by the railways because they believe in the future. These lines do not pay now, but they have faith in the province just as you have.

"But the things which may not be considered of national importance are perhaps more important than the big things. It works that's going to count, it's the bettering up the land around the city. Build out from it, not in towards it."

Premier W. J. Magrath, on the conclusion of the prime minister's speech, said he was glad to know that the premier's mind was on the matter of the settling up of the land in the district immediately surrounding Edmonton as well as the surrounding area.

On T. H. Miller, chairman of the agricultural committee, to tell briefly of what was being done in the district, and that the suggestions made by the premier and several former speakers were being taken into consideration.

That the territory they were endeavoring to cover was that within a radius of 15 miles from the city, and that the permanent agricultural exhibit which they intended to have on one of the city's main streets.

ARMIES OF CZAR ARE MOBILIZING ON THE FRONTIER

Russia Declines to Continue Negotiations Now That Belgrade Has Been Occupied by Austria—Point at Issue Now is Whether Austria Will Seek Territorial Reparation From Serbia—Despatches From Russia Emphasizing War Feeling Passed by Censor Without Alteration—Believe That Only a Miracle Can Now Avert General Struggle.

London, July 30.—Preparations for a possible general European war went on steadily today in every country likely to be involved, and the complications of the situation were augmented by a rumor that Japan also might join in the conflict.

Following the partial mobilization of the Russian army, a step, which that country officially announced to Germany and Austria Hungary, an order was issued by Germany to day to all the officers and men of her reserve force to hold themselves in readiness for a call to arms, and a report reaching here by the way of Paris says that the Berlin war office already has ordered partial mobilization in the eastern provinces.

England also has started preparations to prevent being surprised. Her fleet has been ordered on war footing as scattered vessels of the navy are being brought back to their bases. The Mediterranean fleet which reached Malta today found lighters waiting with coal which was at once taken on board the warships, so they could be moved to any quarter without delay.

St. Petersburg, July 30.—The official agency here today publishes a despatch from Tokio, quoting a newspaper there as expressing the view that in case of a general European war the participation of Japan as the ally of Great Britain is possible.

The Hague, Netherlands, July 30.—The official gazette today published a declaration of absolute neutrality on the part of the Netherlands during the Austro-Serbian war.

St. Petersburg, July 30.—A big hitch has occurred in the Russian-Austrian peace negotiations. This is over the question of the Austrian occupation of Serbian territory. The first proposal that the Russian made in the course of conversation now proceeding was that Austria defer actual hostilities for the purpose of giving Serbia another chance of making honorable amends.

Russia thus acknowledged Serbia to be culpable and that reparation was due to Austria; Austria, however, rejected the proposal and declared that military operations must be continued until adequate amends have been made.

In regard to this Russia takes the view that as Serbia is not in any financial position to pay indemnity, certainly not to the amount of several millions of dollars, there is obviously danger that Austrian occupation of Serbia for the collection of indemnity would be practically permanent.

Both Austria and Russia refuse to give way on these points, and it seems that negotiations must soon be broken down. The news paper Novoye Vremya says that Emperor Francis Josef has addressed a personal letter to the Czar which may have considerable influence in the settlement of the crisis.

Despatches from Vienna state that the conversations between Austria and Russia are continuing, but that no definite information came out today regarding their progress. The powers of the triple alliance have agreed that after Austrian military operations against Serbia have been completed there will be no territorial changes in the Balkans.

Austria's pledge to Russia that there would be no permanent occupation of Serbian territory is supported by assurances from Germany and Italy to the same effect. It is hoped that this triple pledge of the maintenance of the territory status quo in the Balkans will serve to allay anxiety on this point among Russia and her allies.

St. Petersburg, July 30.—In Russia, eyes the die is cast. Only a political miracle can avert war.

Russia does not swerve from her determination to support Serbia, and partial mobilization has already been ordered. There is every indication that the whole vast military machinery in Russia will be soon set in action.

An imperial manifesto is awaited. Should, as is understood, Emperor Nicholas become convinced of the forces, a wave of enthusiasm will sweep over Russia.

The political parties have sunk their differences. The general attitude is not "inquietude" but one of resolute confidence in the justice of the cause and readiness to make sacrifices. The proposal attributed to Austria to discuss terms with Serbia has been regarded as impossible. It is pointed out that before the opening of hostilities Russia proposed to Austria a direct exchange of views, which Austria rejected.

(Note.—The London St. Petersburg despatch was passed by the censor without revision—a fact which is considered highly significant.)

RUSSIA ASSEMBLES 1,280,000 MEN ON AUSTRIAN FRONTIER

London, July 30.—The day events brought no relief to the suspense nor any diplomatic achievement to restrict the Austro-Serbian war to those two nations. The feeling throughout England and the continental feeling as reflected by the correspondents of the

FOOD PRICES RISE IN FRANCE, RUSSIA, ALSO IN GERMANY

Lloyd George Makes Effort to Stop Financial Panic Among English People.

LONDON BANKER SAYS
MONEY IS PLENTIFUL

Farmers on Russian Frontier of Germany and Austria Are Selling Produce.

London, July 30.—Chancellor of the Exchequer David Lloyd George and many big financiers in the city joined hands yesterday to allay as far as possible the panic feeling among investors of all classes, but the failure yesterday of seven well-known coal exchange firms in London and two of Glasgow somewhat counteracted their efforts.

Mr. Lloyd George, in response to a question in the house, said: "I have been in consultation with the Bank of England and I am advised that nothing in the present financial situation warrants the suggestion of convening the directors of that institution to consider steps dealing with conditions necessary."

Sir Felix Sluiter, chairman of the board of Union of London and Smiths Bank, who never has consented to give an interview before, said:

"Although the markets are demoralized, I think London has witnessed the sharpest shock admirably. There is absolutely no sign of panic or even shortness of money. On the contrary, money is plentiful. Up to the present everything is more satisfactory than one could anticipate."

Another financial authority indicated pessimism, but added:

"The demoralized state of the market in Paris may make out of a general character impossible."

"The news of the closing of the exchanges in Montreal and Toronto is regarded here as an ominous sign of the hard hitting which the Canadian stocks received. The bourses now closed are those at Paris, Vienna, Budapest, St. Petersburg, Brussels and Amsterdam."

There is fear of a general rise in food prices in France, Germany and Russia, following the fall of Vienna, where the cost of living increased almost 100 per cent. In the last two days. The Austrian authorities insist that there is no reason for any apprehension of a food famine, but the public in Vienna and Paris, too, is accumulating supplies as if long siege of the city is impending. The farmers on the Russian frontier of Germany and Austria are selling their produce as fast as possible, fearing seizure by troops soon.

SERBIAN PEOPLE DUOVED BY HATE

Tremendous Zeal Inspires Them on Account of Deeply Imbued Feeling.

DISCIPLINE IS STRICT

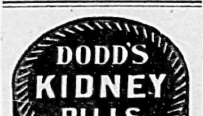

Peasants Are Moving Wives and Children Into the Interior and Joining Army

Cettigne, July 30.—Reports reaching here from Serbia indicate a feverish war activity on the part of both Serbians and peasants. The latter are removing women and children and their belongings to the interior, so that the men can join the colors in the Hunian frontier. Travellers frequently encounter long columns of wagons traversing the country roads from frontier villages.

Two or three infirm old men are the only resort for many wives and youngsters of reservists who have hastened to join the army.

Mobilization is proceeding in a quiet and orderly fashion, due to training in previous campaigns. Army headquarters as well as the government are now at Nish, and movements of troops reported here indicate that the Serbians are planning to occupy a carefully defined line of defence south of Belgrade, thus awaiting in Austrian attack on their own ground.

The non-combatant population in the mountain districts show great anxiety over losing their harvest, which is the sole means of support, but patriotism among the fighters is at its height. Strict discipline in the Serbian forces, the result of past strenuous experience, is tempered with tremendous speed and hatred of Austria.

Good Crops at Lakes
Fort William, July 30.—Frost was reported yesterday in the farming district back of the city but no damage to crops was shown. Hay is well advanced, with a better yield than last year and grain is in good condition although harvesting will not begin until August.

Philadelphians last year consumed 202,000,000 gallons of water.

BRITISH FLEET PUTS UNDER SEALED ORDERS

Huge Armada Leaves Shores of Britain With Bands Playing as if in War.

COAST DEFENCES ARE
PUT ON WAR FOOTING

Eastern Fleets of Britain and Germany Mobilizing Off Coast of China.

London, July 30.—England's first fleet, a huge armada consisting of 25 battleships, four battle cruisers, seven cruisers and 70 destroyers, left Portland yesterday sailing westward under sealed orders. All were aboard by 8 o'clock in the morning and the 100-ton anchor, departing in separate divisions, the bands playing patriotic melodies just as if the ships were bound to war, and the men cheered as they passed the entrance to the breakwater. The fleet formed into squadrons on arrival, proceeding to the westward at top speed. A general calling in of all troops at Dover and the neighboring harbours commenced this afternoon, officers being recalled by telegrams and special messengers and war signal stations and search lights were manned. About 1,000 men, belonging to two infantry regiments left Colchester on a special train for Harwich-Folkestone and the neighborhood fully armed and equipped, carrying baggage, supplies and ammunition. It is understood they are to guard military stores on the coast, but the war office insists that the movement is purely a precautionary one of a defensive character and no measures of a mobilization nature are contemplated.

Shanghai, July 30.—The British fleet is mobilizing at Wei Hai Wei, on the north coast of Shan Tung province. The German fleet is mobilizing at Tsing Tso, about 200 miles to the south.

Valletta, Malta, July 30.—Incessant preparations are proceeding among the large British garrison and also among the vessels of the British fleet here throughout the night. Orders have been issued for officers and men to be ready. The authorities issued orders for a precautionary stage of mobilization, as a consequence great activity was apparent in the dock yards.

Gibraltar, July 30.—Spain has ordered every available warship to assemble at the Alacali Isles, in the Mediterranean. The battleship Playa and several cruisers and destroyers from the Moorish coast, and the cruiser Extremadura, and a torpedo boat squadron are leaving Algiers for the same destination.

All necessary precautions are being taken here.

COURT MARTIAL OF MAJOR LEONARD IS ENDED AT OTTAWA

Ottawa, July 30.—The military court of inquiry into the case of Major Leonard of London, who was dismissed because of alleged drunkenness while on duty at Potesawa, has concluded its proceedings. The court was asked to make findings on several points and the court has found in favor of the military. A few days its report will be submitted to the minister of militia. It is now under advisement.

Bylaws Defeated.
Recreationists July 30.—The bylaws defeated bylaw concerning 20 year contract to supply and distribute gas in Recreation. Voting was 608 for, 600 against, as two-thirds majority was needed. Bylaw to abolish ward system also been 492 to 714.

BOTH SERBIANS AND AUSTRIANS SUSTAIN LOSSES

Serbian Troops Are Offering Sharp Resistance to Austrian Advance—Belgrade Fortress Reduced by Artillery—British Legation Struck by Invaders' Shell—Unconfirmed Report Says Montenegro Troops Have Been Attacked.

Nish, July 30.—The invading Austrian troops advanced today some 20 miles to the southwest of Belgrade and an artillery duel was in progress this morning near Kienkany and Sennedir.

London, July 30.—A newspaper despatch from Rome says sharp resistance is being offered to the Austrian advance from Serbia, by way of Bosnia. The Austro-Hungarian invaders, following the valley of the river Morava, first encountered a body of Serbian troops at Semendria, on the Serbian side of the Danube. The Serbians held their ground until nightfall, when they retired. Both Austrians and Serbians sustained heavy losses, several hundred Serbs being killed in the retreat.

On the western side of Serbia an Austrian column came into attack with Serbian forces at Lomnica, which put up a stubborn defense and held the

FOLK DANCERS WILL TREAD GRACEFULLY AT EDMONTON FAIR

Folk dances will be a popular innovation presented during the grand summer exhibition at the Edmonton summer exhibition.

Forty-eight groups, selected from the finest in Canada, will participate in the exhibition, and will provide a strong drawing card after their introductory performance.

While outside attractions are always entertaining, but have a personal interest in their own, which gives additional charm to the efforts of home talent.

Folk dances have been recognized as far in advance of the ordinary drill, which as they do the old-fashioned calisthenics with the spirit of romance.

This gives the hum-drum drill a new interest in the child's mind, and what was once work becomes a most mysterious play, each one interpreting the folk dance in his own way.

From the standpoint of exercise also, the school authorities recognize the folk dance as being more beneficial than any other form of exercise.

These folk dances will be presented under the direction of Mrs. May Hall, who has been training the little folk diligently.

The "Swedish Folk Dance," "Norwegian Folk Dance," "Danish Folk Dance," and the "How Do You Do?" will be seen at their best at the exhibition of 1914.

Theatres and Picture Shows

FAVORITES NEW AND OLD AT PANTAGES SHOW NEXT WEEK

A bill of benefits is coming to the Pantages theater next week and among them is a headliner which is probably the most sensational act of its kind that has ever been put upon a local stage.

It is Ethel Davis and her baby who in a musical cocktail, entitled "The Fountain of Youth." This play-let is a pretty little story and Miss Davis, who herself is a well-known actress, has gathered together a group of pretty and well formed girls.

The music is good and there are several scenes throughout the sketch which takes one back to their visit to the Louvre in France. Probably the most startling part of the show of September, March, which is carried out by eight girls.

Another treat will be offered by Chester Kingston, the contortionist. Kingston is called the "Clown of the Circus" and he will show his tricks and turns himself into such awkward positions.

The first star, who is Taylor and another act which appeared in the act entitled "Musical Nonsense." They are both singers and have a brilliant voice and are very popular.

Edmonton theater-goers who like any kind of real music, the duo should be entirely satisfactory.
